REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of
the Town of Greenwood:

From the records left by your former Superintendent and from my personal observation, I submit the following report of the schools and school property of this town:

Schools opened for the fall term with the following changes in the teaching force: Miss Mae Briggs, Grammar school Locke Mills; Miss Catherine Towle, Bryant Pond School; also Miss Mary Martin was transferred from the Irish to the Shadagee School and Miss Adelaide Bean was engaged to teach at the Irish. All the teachers have had experience, with one exception, and are filling their positions very satisfactorily. For the salaries which are being paid, we have been especially fortunate in securing such a strong corps of teachers. At a recent meeting the School Committee voted to increase the school year to thirty-six weeks, so that our boys and girls will have the same number of weeks to accomplish their school work as pupils in the majority of towns in the State. If our schools are to be progressive, it will be advisable for our teachers to plan to attend summer school once in three years in order to keep in touch with modern methods of education.

It is very pleasing to note the enthusiasm which the teachers are showing not only in their school work but also in the social activities of the school and community. Most of the schools have active improvement leagues, and are providing themselves with reference books and other school equipment. Electric lights have been installed in the Locke Mills school building through the efforts of the School

League, with the help of the Clover Club. The teachers are serving hot lunches in most of the schools not in the village during the winter term.

Our registration for the fall term was 141, and the average attendance 130. The school census of pupils from 5 to 21 is 226.

Grade registration was as follows:

	Boys	Girls	Total
Grade I	16	9	25
Grade II	6	12	18
Grade III	9	14	23
Grade IV	9	4	13
Grade V	8	9	17
Grade VI	6	8	14
Grade VII	6	9	15
Grade VIII	9	7	16

The cost of education per pupil for the year 1929 was \$42.96. Number of pupils conveyed, ten.

All the other towns of the district have appropriated money for Public Health Nursing work, and it would seem advisable for the Town of Greenwood to make some appropriation in order that the children in the schools may have the benefit of a physical examination by a trained nurse at least once a year.

The textbooks are in very good condition, but it will be necessary to provide new arithmetics and grammars for the upper grades. Maps have been purchased for four of the schools. The other schools should be provided with sets before the opening of the spring term.

At the present time we have 31 students in secondary schools as follows: Gould Academy, 2; Mechanic Falls High School, 2; West Paris High School, 7; Woodstock High School, 20. Enrollment in classes: Seniors 4, Juniors 5, Sophomores 6, Freshmen 16. The enrollment has about doubled this year, which means that the town must make a large increase in the high school tuition appropriation.

Education for high school pupils is well worth while, and money spent for higher education brings to the town more in return than can possibly be estimated.

The school buildings are all in good condition. It will only be necessary to shingle a part of the roof of the school-house at Locke Mills and make some minor repairs at the Irish School.

With a few exceptions, parents have tried to coöperate with teachers in encouraging and maintaining a good attendance. It is desirable that the parents keep in close touch with the schools so that they may fully understand the work which is required of the children. In this way a better understanding between teachers and parents will result, to the benefit of all concerned.

In conclusion, I wish to express my appreciation to the Superintending School Committee, other town officials, teachers and parents for their courtesy and support.

To the former Superintendent, Mr. F. E. Russell, I express my sincere thanks for his valuable suggestions and information.

Respectfully submitted,

E. R. BOWDOIN,

Superintendent of Schools.

If this happened in your family you,

Mrs. Julia Libby, Goodyear Ave., Mel-

when my youngest daughter was 3
years old, I had occasion to use Dr.
True's Elixir when she was suddenly
afflicted with a twitching of the

Finally, I happened to notice Dr.
True's Elixir advertised. I gave her
several doses which resulted in worms
being expelled to the extent that in a
remarkably short time her face re-
turned to normal again and she has
been in the best of health ever since. It
is certainly a wonderful laxative and

seemed almost a miracle for me. I

Estates of Famous Men Settled the Modern Way

Here is a list of well known men who achieved certain special desires by means of specific terms in their Wills.

JAMES OLIVER CURWOOD, one of America's favorite authors, provided thoughtfully for his family's future by making a will.

JUDGE GARY, former head of the great United States Steel Corporation, wished to protect his heirs from loss or dissipation of their legacies, and so in his will he established six trusts.

GEORGE BARR McCUTCHEON, well known author, did not have a big estate, but wanted to be sure that it would be wisely administered for the benefit of his wife.

JACKSON JOHNSON, one of the world's largest manufacturers of shoes, desired to make generous bequests to charity, so he did it by means of a will.

SENATOR BURTON, from Ohio, wanted to provide a regular income for several of his nieces and nephews and did so by making a will.

CHAUNCEY M. DEPEW, America's grand old man, made a will and bequeathed his estate to those whom he wished to benefit.

In all cases these prominent and successful men made a Will and named a Banking Institution Executor and Trustee. They all turned to a specialist in Estate Administration to carry out their plans.

In planning for the Conservation and Management of *your* Estate, *you* should likewise appoint a skilled Executor and Trustee which can easily be done by naming this Bank Executor.
